📍 Dhaka, Bangladesh

👤 Profile

I'm a junior web developer specializing in building full-stack web applications. Proficient in MongoDB, Express.js, React, and Node.js to create dynamic, scalable, and user-friendly solutions.

🎓 Education

Bachelor of Computer Science and Engineering

International University of Business Agriculture and Technology

2022 – 2026

Dhaka, Bangladesh

Higher Secondary Certificate

Uttara High School and College

2019 – 2021

Dhaka, Bangladesh

💼 Professional Experience

Web Developer

Lhasa Technology Studios - Remote

04/2026 – Present

Texas, United States

- Built and deployed interactive user interfaces using the React/Next.JS ecosystem.
- Debugged frontend issues using DevTools and implemented unit testing for core components.
- Maintained version control via GitHub, participating in code reviews and agile workflows.

MERN Full Stack Developer Internship

SoftVerse Group - Onsite

02/2026 – 05/2026

Dhaka, Bangladesh

- Developed and maintained full-stack web applications using MERN Stack.
- Designed and implemented RESTful APIs.
- Integrated them with NoSQL databases for data flow.

🧠 Skills

Frontend

- React.js, Next.js, Typescript
- Tailwind CSS

Backend

- MongoDB, Mongoose
- Express.js, Node.js

📁 Projects

MediMeet- Healthcare Platform 🔗

GitHub Link 🔗

A healthcare patient management application that allows patients to easily register, book, and manage their appointments with doctors, featuring administrative tools for scheduling, confirming, and canceling appointments, along with Email notifications, all built using MERN Stack.

Beautify 🔗

GitHub Link 🔗

Beautify is a modern e-commerce platform for transformative skincare and beauty products, featuring a full-featured admin dashboard, blog, and user management system.
